

DMARC Manager Add-on for Sophos Email

Streamlined prevention of email impersonation attacks and increased brand reputation for improved email delivery

Powered by
 SENDMARC

The DMARC Manager Add-on for Sophos Email (DMARC Manager) integrates with Sophos Email or Sophos EMS to easily reduce email impersonation attacks and improve email deliverability by ensuring DMARC conformance for both senders and receivers.

USE CASES

1. Deliver your emails

Desired outcome: Improve the delivery of your emails to recipients.

Solution: Google, Microsoft and other large companies have begun using DMARC policy enforcement to protect their corporate brands and customers. DMARC Manager helps enforce DMARC conformance and compliance through reporting, DNS record management, and process automation.

2. Secure your inboxes

Desired outcome: Defend against domain and email impersonation attacks.

Solution: Attackers commonly spoof trusted entities to trick victims into engaging malicious emails. DMARC Manager verifies the identity of senders, ensuring that emails received are from the trusted source they claim to be.

3. Expedite DMARC compliance

Desired outcome: Quickly move your organization towards DMARC compliance.

Solution: DMARC Manager is tightly integrated with Sophos Email to streamline implementation. With the click of a few buttons, your organization can be on the fast path to DMARC compliance and the benefits of improved email delivery and security.

4. Reduce management complexity

Desired outcome: Easily manage your DMARC compliance.

Solution: DMARC compliance requires ongoing attention as the dynamic email security landscape changes. By providing clear insights to improve email security and compliance via an intuitive user interface, DMARC Manager delivers the same optimized management and reporting experience that you've come to expect from Sophos.
